Presentation slides discussing IDEX Corporation’s quarterly operating results are attached to this Current Report on Form 8-K as Exhibit 99.2 and are incorporated herein by reference.

The Securities and Exchange Commission encourages companies to disclose forward-looking information so that investors can better understand the future prospects of a company and make informed investment decisions. This Current Report and the Exhibits hereto may contain “forward-looking” statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. These statements may relate to, among other things, the Company’s full year 2022 outlook including expected organic sales growth, expected earnings per share and adjusted earnings per share, and the assumptions underlying these expectations, anticipated future acquisition behavior and capital deployment, availability of cash and financing alternatives, the intent to refinance or repay the 3.20% Senior Notes using the available borrowing capacity of the Revolving Facility, the anticipated timing of the closing of and the anticipated sources of funding for the Company’s acquisition of Muon B.V. and its subsidiaries (“Muon Group”) and the anticipated benefits of the Company’s acquisitions, including the acquisitions of ABEL Pumps, L.P. and certain of its affiliates (“ABEL”), Airtech Group, Inc., US Valve Corporation and related entities (“Airtech”), Nexsight, LLC and its businesses EnviroSight, WinCan, MyTana and Pipeline Renewal Technologies (“Nexsight”), KZ CO. (“KZValve”) and Muon Group, and are indicated by words or phrases such as “anticipates,” “estimates,” “plans,” “guidance,” “expects,” “projects,” “forecasts,” “should,” “could,” “will,” “management believes,” “the Company believes,” “the Company intends” and similar words or phrases. These statements are subject to inherent uncertainties and risks that could cause actual results to differ materially from those anticipated at the date of this Current Report. The risks and uncertainties include, but are not limited to, the following: the impact of health epidemics and pandemics, including the COVID-19 pandemic, and the impact of related governmental actions, on the Company’s ability to operate its business and facilities, on its customers, on supply chains and on the U.S. and global economy generally; economic and political consequences resulting from terrorist attacks and wars, including Russia’s invasion of Ukraine and the global response to this invasion, which, along with the ongoing effects of the COVID-19 pandemic, could have an adverse impact on the Company’s business by creating disruptions in the global supply chain and by potentially having an adverse impact on the global economy; levels of industrial activity and economic conditions in the U.S. and other countries around the world, including uncertainties in the financial markets; pricing pressures, including inflation and rising interest rates, and other competitive factors and levels of capital spending in certain industries, all of which could have a material impact on order rates and the Company’s results; the Company’s ability to make acquisitions and to integrate and operate acquired businesses on a profitable basis; the relationship of the U.S. dollar to other currencies and its impact on pricing and cost competitiveness; political and economic conditions in foreign countries in which the Company operates; developments with respect to trade policy and tariffs; interest rates; capacity utilization and the effect this has on costs; labor markets; supply chain backlogs, including risks affecting component availability, labor inefficiencies and freight logistical challenges; market conditions and material costs; risks related to environmental, social and corporate governance (“ESG”) issues, including those related to climate change and sustainability; and

developments with respect to contingencies, such as litigation and environmental matters. Additional factors that could cause actual results to differ materially from those reflected in the forward-looking statements include, but are not limited to, the risks discussed in the "Risk Factors" section included in the Company's most recent annual report on Form 10-K and the Company's subsequent quarterly reports filed with the Securities and Exchange Commission ("SEC") and the other risks discussed in the Company's filings with the SEC. The forward-looking statements included in this Current Report and the Exhibits hereto are only made as of the date of this Current Report, and management undertakes no obligation to publicly update them to reflect subsequent events or circumstances, except as may be required by law. Investors are cautioned not to rely unduly on forward-looking statements when evaluating the information presented herein.

The information in this Current Report furnished pursuant to Items 7.01 and 9.01 shall not be deemed "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that Section. This information shall not be incorporated by reference into any registration statement pursuant to the Securities Act of 1933, as amended. The furnishing of the information in this Current Report is not intended to, and does not, constitute a representation that such furnishing is required by Regulation FD or that the information this Current Report contains is material investor information that is not otherwise publicly available.

IDEX REPORTS RECORD THIRD QUARTER RESULTS AND RAISES FULL YEAR GUIDANCE

Third Quarter 2022 Highlights

- Record reported EPS of \$2.36, up 56% and record adjusted EPS of \$2.14, up 20% vs. Q3 2021
- Record sales of \$824 million, up 16% overall and 15% organically vs. Q3 2021
- Reported and adjusted operating margin of 24.5% and 24.9% were up 190 and 60 basis points, respectively, vs. Q3 2021
- Record cash from operations of \$198 million was 111% of net income; record free cash flow of \$182 million was 112% of adjusted net income
- Full year GAAP EPS and adjusted EPS raised to \$7.75 to \$7.80 and \$8.04 to \$8.09, respectively

NORTHBROOK, IL, October 25, 2022 - IDEX Corporation (NYSE: IEX) today announced its financial results for the three month period ended September 30, 2022.

"Our businesses delivered another great quarter with broad-based strength across the enterprise," said Eric D. Ashleman, IDEX Corporation Chief Executive Officer and President. "In the third quarter, we achieved record sales, double digit organic growth across all three of our segments and solid operating margin performance driving record EPS and strong free cash flow generation."

"As previously announced, during the third quarter we reached an agreement to acquire Muon Group for €700 million, our largest acquisition to date. The addition of these high-quality, market-leading technology businesses to the portfolio will enhance our growth strategy and drive long-term shareholder value. Our balance sheet is well positioned to deploy capital towards our large pipeline of high-quality acquisition opportunities."

2022 Outlook

Full year 2022 organic sales growth is projected to be approximately 12 percent over the prior year period, with a 9 percent organic sales increase in the fourth quarter of 2022 versus the prior year period. The Company expects full year 2022 reported EPS attributable to IDEX of \$7.75 to \$7.80 (adjusted EPS attributable to IDEX of \$8.04 to \$8.09) and fourth quarter 2022 reported EPS attributable to IDEX of \$1.75 to \$1.80 (adjusted EPS attributable to IDEX of \$1.92 to \$1.97).

Net Sales

Third quarter 2022 sales of \$824.0 million reflected a 16 percent increase compared with the prior year period (+15 percent organic, +3 percent acquisitions/divestitures, +3 percent impact from the exit of a COVID-19 testing application and -5 percent foreign currency translation).

Gross Margin

Third quarter 2022 gross margin of 46.3 percent increased 250 basis points compared with the prior year period primarily due to higher volume leverage and favorable price/cost as well as the acceleration of previously deferred revenue related to the exit of a COVID-19 testing application, partially offset by higher employee-related costs. Additionally, the prior year period was unfavorably impacted by the fair value inventory step-up charge related to the acquisition of Airtech Group, Inc., US Valve Corporation and related entities ("Airtech") in June 2021. Adjusted gross margin, which excludes the acceleration of previously deferred revenue and fair value inventory step-up charges, increased 10 basis points compared with the prior year period.

Operating Margin

Third quarter 2022 operating margin of 24.5 percent increased 190 basis points compared with the prior year period due to the drivers discussed above, partially offset by the unfavorable impact of the impairment charge related to the exit of a COVID-19 testing application as well as higher discretionary spending and resource investments. Additionally, the prior year period included higher restructuring costs. Adjusted operating margin, which excludes fair value inventory step-up charges, restructuring expenses and asset impairments and the net impact from the exit of a COVID-19 testing application, increased 60 basis points. Incremental amortization of \$2.3 million related to the acquisitions of Nexsight, LLC and its businesses EnviroSight, WinCan, MyTana and Pipeline Renewal Technologies ("Nexsight") in February 2022 and KZ CO. ("KZValve") in May 2022 unfavorably impacted adjusted operating margin by 30 basis points in third quarter 2022.

Net Income Attributable to IDEX

Third quarter 2022 net income attributable to IDEX increased \$63.0 million to \$178.7 million, which resulted in EPS attributable to IDEX of \$2.36 per share. The third quarter 2022 effective tax rate of 21.8 percent decreased compared to the prior year period effective tax rate of 23.4 percent primarily due to the tax benefits realized with the sale of Knight LLC ("Knight"). Adjusted EPS attributable to IDEX, which reflects the impact of non-GAAP adjustments, net of related taxes, was \$2.14 per share, an increase of 35 cents per share, or 19.6 percent, from the prior year period.

Cash Flow

Third quarter 2022 cash from operations of \$198.1 million was 110.9 percent of net income attributable to IDEX and up 26.5 percent compared with the prior year period primarily due to higher earnings. Third quarter 2022 free cash flow of \$181.8 million was 112.3 percent of adjusted net income attributable to IDEX. Free cash flow as a percent of adjusted net income attributable to IDEX reflects the impact of excluding acquisition-related intangible asset amortization, net of related taxes, from adjusted net income attributable to IDEX for all periods presented.

- Third quarter 2022 sales of \$307.6 million reflected a 22 percent increase compared with the third quarter of 2021 (+17 percent organic, +9 percent acquisitions/divestitures and -4 percent foreign currency translation).
- Third quarter 2022 operating margin was 30.7 percent, up 320 basis points compared with the prior year period. This increase was primarily due to favorable price/cost, strong operational productivity and higher volume leverage, partially offset by increases in employee-related costs, discretionary spending and resource investments. Additionally, restructuring costs were higher in the prior year period. Adjusted operating margin, which excludes restructuring costs, increased 250 basis points. Incremental amortization of \$2.3 million related to the Nexsight and KZValve acquisitions unfavorably impacted adjusted operating margin by 80 basis points in third quarter 2022.

Health & Science Technologies

(Dollars in millions)	Three Months Ended September 30,		
	2022	2021	Increase (Decrease)

*These are non-GAAP measures. See the definitions of these non-GAAP measures in the section in this release titled "Non-GAAP Measures of Financial Performance" and reconciliations to their most directly comparable GAAP financial measures in the reconciliation tables at the end of this release.

- Third quarter 2022 sales of \$345.0 million reflected a 14 percent increase compared with the third quarter of 2021 (+13 percent organic, +6 percent impact from the exit of a COVID-19 testing application and -5 percent foreign currency translation).
- Third quarter 2022 operating margin was 24.8 percent, up 150 basis points compared with the prior year period primarily due to the \$9.1 million fair value inventory step-up charge related to the Airtech acquisition in the prior year period that did not reoccur in 2022. Additionally, higher volume leverage and favorable price/cost were more than offset by lower productivity, the dilutive impact from the exit of a COVID-19 testing application and increases in employee-related costs, discretionary spending and resource investments. Adjusted operating margin, which excludes the prior year period impact of fair value inventory step-up charges and restructuring costs as well as the current year period net impact from the exit of a COVID-19 testing application, decreased 70 basis points.

Fire & Safety/Diversified Products

(Dollars in millions)	Three Months Ended September 30,		
	2022	2021	Increase (Decrease)
Net sales	\$ 172.4	\$ 159.1	\$ 13.3
Operating income	43.6	39.1	4.5

Adjusted operating income*	\$ 43.6	\$ 39.0	\$ 4.6
Adjusted operating margin*	25.3 %	24.6 %	70 bps

*These are non-GAAP measures. See the definitions of these non-GAAP measures in the section in this release titled "Non-GAAP Measures of Financial Performance" and reconciliations to their most directly comparable GAAP financial measures in the reconciliation tables at the end of this release.

- Third quarter 2022 sales of \$172.4 million reflected an 8 percent increase compared with the third quarter of 2021 (+14 percent organic and -6 percent foreign currency translation).
- Third quarter 2022 operating margin was 25.3 percent, up 70 basis points compared with the prior year period primarily due to higher volume, partially offset by higher employee-related costs and unfavorable price/cost due to long-term original equipment manufacturer contracts.

Corporate Costs

Corporate costs included in operating income were \$21.5 million in the third quarter of 2022, an increase of \$4.2 million over the prior year period, primarily due to higher acquisition, discretionary and employee-related costs. Corporate costs included in adjusted operating income, which excludes the prior year period impact of restructuring costs, net of a Corporate transaction indemnity, increased by \$4.5 million.

Acquisition

On September 13, 2022, the Company entered into a definitive agreement to acquire Muon B.V. and its subsidiaries ("Muon Group") for cash consideration of €700.0 million, subject to customary post-closing adjustments. Muon Group, based in the Netherlands, manufactures highly precise flow paths in a variety of materials that enable the movement of various liquids and gases in critical applications for medical, semiconductor, food processing, digital printing and filtration technologies. Muon Group will expand upon the Company's growing platform of precision technology businesses in the Health & Science Technologies ("HST") segment with its unique technology and product solutions for similar end-customers. With annual sales of approximately €140.0 million, Muon Group will be part of the Company's Scientific Fluidics & Optics reporting unit within the HST segment. The Company expects to close the transaction by the end of the fourth quarter of 2022, subject to regulatory approval and customary closing conditions.

Divestiture

On September 9, 2022, the Company completed the sale of Knight for proceeds of \$49.4 million, net of cash remitted, resulting in a pre-tax gain on the sale of \$34.8 million. The results of Knight were reported within the Fluid & Metering Technologies ("FMT") segment.

Exit of a COVID-19 Testing Application

In the second quarter of 2020, the Company engaged in the development of a COVID-19 testing application with a customer at one of its businesses in the HST segment. As part of this contract, the customer fully funded the \$28.7 million investment needed to complete the development and production of microfluidic cartridges during 2020 and 2021. The costs incurred by the Company were primarily recorded as Property, plant & equipment and were being depreciated over the expected life of the assets, while the reimbursement was recorded as Deferred revenue and was being recognized as units were shipped.

In the third quarter of 2022, the Company was informed by the customer of its decision to discontinue further investment in commercializing its COVID-19 testing application, resulting in an impairment charge of \$16.8 million and an acceleration of previously deferred revenue of \$17.9 million related to units that are no longer expected to be shipped for a net operating income impact of \$1.1 million.

Forward-Looking Statements

This news release contains "forward-looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. These statements may relate to, among other things, the Company's full year 2022 outlook including expected organic sales growth, expected earnings per share and adjusted earnings per share, and the assumptions underlying these expectations, anticipated future acquisition behavior and capital deployment, availability of cash and financing alternatives, the intent to refinance or repay the 3.20% Senior Notes using the available borrowing capacity of the Revolving Facility, the anticipated timing of the closing of and the anticipated sources of funding for the Company's acquisition of Muon Group and the anticipated benefits of the Company's acquisitions, including the

acquisitions of ABEL Pumps, L.P. and certain of its affiliates, Airtech, Nexsight, KZValve and Muon Group, and are indicated by words or phrases such as “anticipates,” “estimates,” “plans,” “guidance,” “expects,” “projects,” “forecasts,” “should,” “could,” “will,” “management believes,” “the Company believes,” “the Company intends” and similar words or phrases. These statements are subject to inherent uncertainties and risks that could cause actual results to differ materially from those anticipated at the date of this news release. The risks and uncertainties include, but are not limited to, the following: the impact of health epidemics and pandemics, including the COVID-19 pandemic, and the impact of related governmental actions, on the Company’s ability to operate its business and facilities, on its customers, on supply chains and on the U.S. and global economy generally; economic and political consequences resulting from terrorist attacks and wars, including Russia’s invasion of Ukraine and the global response to this invasion, which, along with the ongoing effects of the COVID-19 pandemic, could have an adverse impact on the Company’s business by creating disruptions in the global supply chain and by potentially having an adverse impact on the global economy; levels of industrial activity and economic conditions in the U.S. and other countries around the world, including uncertainties in the financial markets; pricing pressures, including inflation and rising interest rates, and other competitive factors and levels of capital spending in certain industries, all of which could have a material impact on order rates and the Company’s results; the Company’s ability to make acquisitions and to integrate and operate acquired businesses on a profitable basis; the relationship of the U.S. dollar to other currencies and its impact on pricing and cost competitiveness; political and economic conditions in foreign countries in which the Company operates; developments with respect to trade policy and tariffs; interest rates; capacity utilization and the effect this has on costs; labor markets; supply chain backlogs, including risks affecting component availability, labor inefficiencies and freight logistical challenges; market conditions and material costs; risks related to environmental, social and corporate governance (“ESG”) issues, including those related to climate change and sustainability; and developments with respect to contingencies, such as litigation and environmental matters. Additional factors that could cause actual results to differ materially from those reflected in the forward-looking statements include, but are not limited to, the risks discussed in the “Risk Factors” section included in the Company’s most recent annual report on Form 10-K and the Company’s subsequent quarterly reports filed with the Securities and Exchange Commission (“SEC”) and the other risks discussed in the Company’s filings with the SEC. The forward-looking statements included here are only made as of the date of this news release, and management undertakes no obligation to publicly update them to reflect subsequent events or circumstances, except as may be required by law. Investors are cautioned not to rely unduly on forward-looking statements when evaluating the information presented here.

- (a) Three and nine month data include the results of the ABEL acquisition (March 2021), the Nexsight acquisition (February 2022) and the KZValve acquisition (May 2022) in the FMT segment and the Airtech acquisition (June 2021) in the Health & Science Technologies ("HST") segment from the date of acquisition. Three and nine month data also includes the results of Knight (September 2022) in the FMT segment through the date of disposition. Nine month data also includes the results of CiDRA Precision Services (March 2021) in the HST segment through the date of disposition.
- (b) Segment operating income excludes unallocated corporate operating expenses which are included in Corporate Office and Eliminations.
- (c) These are non-GAAP financial measures. For a reconciliation of these non-GAAP financial measures to their most comparable measure calculated and presented in accordance with GAAP, see the reconciliation tables below.
- (d) Depreciation and amortization exclude amortization of debt issuance costs.

Non-GAAP Measures of Financial Performance

The Company prepares its public financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). The Company supplements certain GAAP financial performance metrics with non-GAAP financial performance metrics. Management believes these non-GAAP financial performance metrics provide investors with greater insight, transparency and a more comprehensive understanding of the financial information used by management in its financial and operational decision-making because certain of these adjusted metrics exclude items not reflective of ongoing operations, such as fair value inventory step-up charges, restructuring expenses and asset impairments, the impact from the exit of a COVID-19 testing application, the gain on sale of a business, gains on sales of assets, the loss on early debt redemption, the noncash loss related to the termination of the U.S. pension plan, the impact of the settlement for a Corporate transaction indemnity and acquisition-related intangible asset amortization. Reconciliations of non-GAAP financial performance metrics to their most comparable GAAP financial performance metrics are defined and presented below and should not be considered a substitute for, nor superior to, the financial data prepared in accordance with GAAP. Due to rounding, numbers presented throughout this and other documents may not add up or recalculate precisely. There were no adjustments to GAAP financial performance metrics other than the items noted below.

- Organic orders and sales are calculated excluding amounts from acquired or divested businesses during the first twelve months of ownership or prior to divestiture, the impact of foreign currency translation and the impact from the exit of a COVID-19 testing application.
- Adjusted net sales is calculated as net sales less the acceleration of previously deferred revenue related to the exit of a COVID-19 testing application.
- Adjusted gross profit is calculated as gross profit less the impact from the exit of a COVID-19 testing application plus fair value inventory step-up charges.
- Adjusted gross margin is calculated as adjusted gross profit divided by adjusted net sales.
- Adjusted operating income is calculated as operating income plus fair value inventory step-up charges plus restructuring expenses and asset impairments less the net impact from the exit of a COVID-19 testing application plus the impact of the settlement for a Corporate transaction indemnity.
- Adjusted operating margin is calculated as adjusted operating income divided by adjusted net sales.
- Adjusted net income attributable to IDEX is calculated as net income attributable to IDEX plus restructuring expenses and asset impairments plus fair value inventory step-up charges less the net impact from the exit of a COVID-19 testing application less the gain on sale of a business less gains on sales of assets plus the impact of the settlement for a Corporate transaction indemnity plus the loss on early debt redemption plus the noncash loss related to the termination of the U.S. pension plan plus acquisition-related intangible asset amortization, all net of the statutory tax expense or benefit.
- Adjusted EPS attributable to IDEX is calculated as adjusted net income attributable to IDEX divided by the diluted weighted average shares outstanding.
- EBITDA is calculated as net income plus interest expense plus provision for income taxes plus depreciation and amortization. The Company reconciles EBITDA to net income on a consolidated basis as IDEX does not allocate consolidated interest expense or consolidated provision for income taxes to its segments.
- EBITDA interest coverage is calculated as EBITDA divided by consolidated interest expense.
- Adjusted EBITDA is calculated as EBITDA plus fair value inventory step-up charges plus restructuring expenses and asset impairments less the net impact from the exit of a COVID-19 testing application plus the impact of the settlement for a Corporate transaction indemnity less the gain on sale of a business less gains on sales of assets plus the loss on early debt redemption plus the noncash loss related to the termination of the U.S. pension plan.
- Adjusted EBITDA margin is calculated as adjusted EBITDA divided by adjusted net sales.
- Adjusted EBITDA interest coverage is calculated as Adjusted EBITDA divided by consolidated interest expense.
- Free cash flow is calculated as cash flow from operating activities less capital expenditures.

Cautionary Statement

Cautionary Statement Under the Private Securities Litigation Reform Act; Non-GAAP Measures

This presentation contains "forward-looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. These statements may relate to, among other things, the Company's full year 2022 outlook including expected organic sales growth, expected earnings per share and adjusted earnings per share, and the assumptions underlying these expectations, anticipated future acquisition behavior and capital deployment, availability of cash and financing alternatives, the intent to refinance or repay the 3.20% Senior Notes using the available borrowing capacity of the Revolving Facility, the anticipated timing of the closing of and the anticipated sources of funding for the Company's acquisition of Muon Group and the anticipated benefits of the Company's acquisitions, including the acquisitions of ABEL Pumps, L.P. and certain of its affiliates, Airtech, Nexsight, KZValve and Muon Group, and are indicated by words or phrases such as "anticipates," "estimates," "plans," "guidance," "expects," "projects," "forecasts," "should," "could," "will," "management believes," "the Company believes," "the Company intends" and similar words or phrases. These statements are subject to inherent uncertainties and risks that could cause actual results to differ materially from those anticipated at the date of this presentation. The risks and uncertainties include, but are not limited to, the following: the impact of health epidemics and pandemics, including the COVID-19 pandemic, and the impact of related governmental actions, on the Company's ability to operate its business and facilities; on its customers, on supply chains and on the U.S. and global economy generally; economic and political consequences resulting from terrorist attacks and wars, including Russia's invasion of Ukraine and the global response to this invasion, which, along with the ongoing effects of the COVID-19 pandemic, could have an adverse impact on the Company's business by creating disruptions in the global supply chain and by potentially having an adverse impact on the global economy; levels of industrial activity and economic conditions in the U.S. and other countries around the world, including uncertainties in the financial markets; pricing pressures, including inflation and rising interest rates, and other competitive factors and levels of capital spending in certain industries, all of which could have a material impact on order rates and the Company's results; the Company's ability to make acquisitions and to integrate and operate acquired businesses on a profitable basis; the relationship of the U.S. dollar to other currencies and its impact on pricing and cost competitiveness; political and economic conditions in foreign countries in which the Company operates; developments with respect to trade policy and tariffs; interest rates; capacity utilization and the effect this has on costs; labor markets; supply chain backlogs, including risks affecting component availability, labor inefficiencies and freight logistical challenges; market conditions and material costs; risks related to environmental, social and corporate governance ("ESG") issues, including those related to climate change and sustainability; and developments with respect to contingencies, such as litigation and environmental matters. Additional factors that could cause actual results to differ materially from those reflected in the forward-looking statements include, but are not limited to, the risks discussed in the "Risk Factors" section included in the Company's most recent annual report on Form 10-K and the Company's subsequent quarterly reports filed with the Securities and Exchange Commission ("SEC") and the other risks discussed in the Company's filings with the SEC. The forward-looking statements included here are only made as of the date of this presentation, and management undertakes no obligation to publicly update them to reflect subsequent events or circumstances, except as may be required by law. Investors are cautioned not to rely unduly on forward-looking statements when evaluating the information presented here.

This presentation contains non-GAAP financial information. Reconciliations of non-GAAP measures are included either in this presentation or our earnings release for the three-month period ending September 30, 2022, which is available on our website.
