IDEX CORPORATION AND SUBSIDIARIES  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Organization and Acquisition

Pursuant to the requirements of the Securities and Exchange Commission, the January 22, 1988 Acquisition of the initial six businesses comprising IDEX Corporation ("IDEX" or the "Company") was not accounted for as a purchase transaction. Consequently, the accounting for the acquisition does not reflect any adjustment of the carrying value of the assets and liabilities to their fair values at the time of the acquisition. Accordingly, the shareholders' equity of IDEX at September 30, 1995 and December 31, 1994 includes a charge of \$96.5 million, which represents the excess of the purchase price over the book value of the subsidiaries purchased at the date of the acquisition.

2.(a) Significant Accounting Policies

In the opinion of management, the unaudited information presented as of September 30, 1995 and for the third quarter and nine months ended September 30, 1995 and 1994 reflects all adjustments necessary, which consist only of normal recurring adjustments, for a fair presentation of the interim periods.

(b) Earnings Per Share

Earnings per share is computed by dividing net income by the weighted average number of shares of common stock and common stock equivalents outstanding during the period. Common stock equivalents, in the form of stock options, have been included in the calculation of weighted average shares outstanding under the treasury stock method.

3. Inventories

The components of inventories as of September 30, 1995 and December 31, 1994 were: (000's omitted)

	September 30, 1995	December 31, 1994
	-----	-----
Inventories		
Raw materials and supplies	\$12,543	\$ 9,430
Work in process	10,780	10,648
Finished goods	68,473	58,027
	-----	-----
Totals	\$91,796 =====	\$78,105 =====

Those inventories which were carried on a LIFO basis amounted to \$49,256 and \$41,499 at September 30, 1995 and December 31, 1994, respectively. The excess of current cost over LIFO inventory value and the impact on earnings of using the LIFO method are not material.

#### 4. Common and Preferred Stock

All share and per-share data has been restated to reflect the three-for-two stock split effected in the form of a 50% dividend paid in January 1995.

The Company had five million shares of preferred stock authorized but unissued at September 30, 1995 and December 31, 1994.

#### 5. Acquisitions

On May 2, 1995 IDEX acquired the net assets of Micropump Corporation, a leading producer of very small magnetically driven gear pumps used in a variety of industrial, medical and technical applications where extremely accurate but very low flow output is necessary. With headquarters and principal manufacturing facilities in Vancouver, Washington, Micropump also has operations in St. Neots, England. Micropump's annual sales are in the \$25 million range. This acquisition was financed through a \$33 million borrowing under IDEX's bank revolving credit agreement (the "Domestic Credit Agreement").

On October 2, 1995 IDEX acquired the outstanding stock of LUKAS Hydraulik GmbH, located in Erlangen, Germany, for the equivalent of approximately \$35 million. LUKAS is a leading European manufacturer of emergency rescue tools, railroad rerailling equipment and specialty hydraulic devices used in a variety of worldwide markets, including fire and rescue, transportation, construction, and process industries. The acquisition was financed through borrowings under a new DM 52.5 million credit facility (the "German Credit Agreement") entered into by LUKAS and guaranteed by IDEX effective October 2, 1995. The availability under the German Credit Agreement declines in stages from DM 52.5 million to DM 31.3 million at November 1, 2000. Interest is payable quarterly on the outstanding balance at LIBOR plus 100 basis points.

The Micropump acquisition was accounted for using the purchase method of accounting as will the LUKAS acquisition when it is recorded in October. These acquisitions are not material to the financial position or results of operations of IDEX either individually or in the aggregate, and therefore, proforma financial data is not presented.

Item 2. Management's Discussion and Analysis of Financial Condition  
and Results of Operations

Historical Overview and Outlook

IDEX sells a broad range of fluid handling and industrial products to a diverse customer base in the United States and internationally. Accordingly, IDEX's businesses are generally affected by levels of industrial activity and economic conditions in the United States and in those other countries where its products are sold and, to some extent, by the relationship of the dollar to other currencies. Among the factors that affect the demand for IDEX's products are interest rates, levels of capital spending by industry and overall industrial growth.

IDEX achieved record third quarter and September year-to-date sales, net income and earnings per common share in 1995.

IDEX expects modest improvements in worldwide industrial activity during the next few quarters and has seen signs of renewed order activity following the slower growth of the summer months. IDEX believes its fourth quarter results are likely to be in the same range as the third quarter and a record year is expected for 1995. IDEX businesses, while heavily dependent on incoming orders, serve a broad cross section of industry with relatively low-priced, proprietary products. Management believes that these facts, together with the Company's leading market positions in its businesses, augur well for the future. IDEX expects to continue its improvement in sales and earnings in 1996, emphasizing international development, market development, new product introductions and strategic acquisitions.

Results of Operations

For purposes of this discussion and analysis section, reference is made to the tables set forth on the preceding pages 8 and 9 and the Company's Statements of Consolidated Operations included in the Financial Statement section. IDEX consists of two business segments: Fluid Handling and Industrial Products.

All share and per share data has been restated to reflect the three-for-two stock split effected in the form of a 50% stock dividend in January 1995.

## Performance in the Third Quarter Ended September 30, 1995 Compared to 1994

Sales, net income and earnings per common share established records for the third quarter ended September 30, 1995. Incoming orders were only slightly above the comparable prior year quarter as a 4% decline in base business bookings was offset by orders received by Micropump, a business acquired in May 1995.

Third quarter 1995 consolidated net sales of \$116.8 million increased \$9.8 million, or 9%, from the comparable period in 1994 with shipments in base businesses improving by 4% and Micropump accounting for the other 5% of sales gain. Fluid Handling Group sales of \$85.1 million increased \$7.7 million, or 10%, with 7% of the increase due to the inclusion of Micropump and 3% reflecting increased sales of base businesses in the Group. Sales in the Industrial Products Group of \$31.7 million increased \$2.1 million, or 7%, due to increased demand.

Income from operations increased 15% to \$20.4 million in the third quarter of 1995 from \$17.7 million in the third quarter of 1994. In the Fluid Handling Group, income from operations increased 11% to \$16.6 million in the third quarter of 1995 from \$15.0 million in the comparable 1994 quarter. Operating margins for the Group increased slightly to 19.6% in the current quarter from 19.4% in the same quarter a year ago. Income from operations in the Industrial Products Group of \$5.3 million and operating margins of 16.8% in the third quarter of 1995 were higher than income from operations of \$4.6 million and operating margins of 15.6% in the comparable quarter of 1994 primarily due to volume-related improvements.

Interest expense at \$4.1 million was virtually unchanged from the third quarter of the prior year.

The provision for income taxes increased to \$5.8 million in the third quarter of 1995 from \$5.0 million in the third quarter of 1994. The effective tax rate increased slightly to 35.4% in the current quarter from 35.0% a year ago.

Net income of \$10.7 million in the third quarter of 1995 was 21% higher than the \$8.9 million recorded in the 1994 period. Earnings per common share amounted to \$.54 in the current quarter, up 20% from the \$.45 recorded in the third quarter of 1994.

## Performance in the Nine Months Ended September 30, 1995 Compared to 1994

Sales, net income and earnings per common share were at record levels in the nine months ended September 30, 1995. New orders received in this period were about \$2 million less than shipments, and IDEX ended September with a very typical 1.6 months' sales in backlog.

Nine month 1995 consolidated net sales of \$360.6 million increased \$74.2 million, or 26%, from the comparable period in 1994, with sales improvements in the Company's base businesses accounting for approximately half of the rise and acquisitions accounting for the other half. Fluid Handling Group sales of \$258.1 million increased \$60.8 million, or 31%, with about two-thirds of the increase due to the inclusion of recently acquired businesses and the other third resulting from improved sales activity in base businesses. Sales in the Industrial Products Group of \$102.8 million increased \$13.4 million, or 15%, due to increased demand.

Income from operations increased 36% to \$64.0 million in the first three quarters of 1995 from \$47.2 million in the same period of 1994. In the Fluid Handling Group, September year to date income from operations increased 35% to \$53.3 million from \$39.6 million in the comparable 1994 period as operating margins improved to 20.7% from 20.1%. The margin change resulted principally from improvement at base business units which was partially offset by somewhat lower margins in recently acquired businesses and whose margins are further affected by purchase accounting adjustments. Year to date income from operations in the Industrial Products Group of \$17.0 million and operating margins of 16.6% in 1995 were sharply higher than income from operations of \$13.3 million and operating margins of 14.9% recorded in the comparable period of 1994 due to volume-related improvements.

Interest expense increased to \$11.7 million in the first nine months of 1995 from \$9.7 million in the comparable 1994 period principally due to increased borrowings under the Domestic Credit Agreement for the acquisition of Hale Products and Micropump.

The provision for income taxes increased to \$18.8 million in the three quarters of 1995 from \$13.5 million in the comparable period of 1994. The effective tax rate increased slightly to 35.8% this year from 35.3% a year ago primarily due to the non-deductibility of goodwill amortization associated with the 1994 purchase of Hale Products.

September 1995 year to date net income of \$33.8 million was 39% higher than the \$24.4 million recorded in the 1994 period. Earnings per common share amounted to \$1.71 in the current nine months, up 37% from the \$1.25 recorded in 1994.

## Liquidity and Capital Resources

On September 30, 1995, IDEX's working capital was \$95.1 million and its current ratio was 2.3 to 1. Internally generated funds were adequate to fund capital expenditures of \$9.6 million and \$6.9 million for the nine months ended September 30, 1995 and 1994, respectively. These expenditures were primarily for machinery and equipment acquired to improve productivity, with a portion for repair and replacement of equipment and facilities. Management believes that IDEX has ample capacity in its plant and equipment to meet expected needs for future growth in the intermediate term. During the nine months ended September 30, 1995 and 1994, depreciation and amortization expense, excluding amortization of debt issuance expenses, was \$12.6 million and \$10.2 million, respectively.

On May 2, 1995 IDEX acquired the net assets of Micropump Corporation, a leading producer of very small magnetically driven gear pumps used in a variety of industrial, medical and technical applications where extremely accurate but very low flow output is necessary. With headquarters and principal manufacturing facilities in Vancouver, Washington, Micropump also has operations in St. Neots, England. Micropump's annual sales are in the \$25 million range. This acquisition was financed through a \$33 million borrowing under IDEX's Domestic Credit Agreement.

On October 2, 1995 IDEX acquired the outstanding stock of LUKAS Hydraulik GmbH, located in Erlangen, Germany, for the equivalent of approximately \$35 million. LUKAS is a leading European manufacturer of emergency rescue tools, railroad rerailling equipment and specialty hydraulic devices used in a variety of worldwide markets, including fire and rescue, transportation, construction, and process industries. The acquisition was financed through borrowings under a new DM 52.5 million credit facility (the "German Credit Agreement") entered into by LUKAS and guaranteed by IDEX effective October 2, 1995. The availability under the German Credit Agreement declines in stages from DM 52.5 million to 31.3 million at November 1, 2000. Interest is payable quarterly on the outstanding balance at LIBOR plus 100 basis points.

At September 30, 1995, the maximum amount available under the Domestic Credit Agreement was \$150 million, of which \$103 million was being used. The availability under the Domestic Credit Agreement is scheduled to decline in stages from \$150 million to \$135 million at December 31, 1995, to \$115 million at December 31, 1996, and to \$100 million at December 31, 1997. Any amount outstanding at September 30, 1999 becomes due at that date. Interest is payable quarterly on the outstanding balance at the Bank Agent's reference rate, or at rates applicable to certain dollar deposits in the interbank Eurodollar market plus 75 basis points.

IDEX believes it will generate sufficient cash flow from operations to meet its operating requirements, interest and scheduled amortization payments, prior to maturity, under its Domestic and German Credit Agreements, interest and principal payments on its 9-3/4% Senior Subordinated Notes, approximately \$15 million of expected aggregate capital expenditures in 1995 and \$11 million of annual dividend payments to holders of common stock. From commencement of operations in January, 1988 until September 30, 1995, IDEX borrowed \$240 million under the Domestic Credit Agreement to complete eight acquisitions. During this same period, IDEX generated, principally from operations, cash flow of \$227 million to reduce its indebtedness. In the event that suitable businesses or assets are available for acquisition by IDEX upon terms acceptable to the Board of Directors, IDEX may obtain all or a portion of the financing for the acquisitions

through the incurrence of additional long-term indebtedness.

Part II. Other Information

- Item 1. Legal Proceedings. None.
- Item 2. Changes in Securities. Not Applicable.
- Item 3. Defaults upon Senior Securities. None.
- Item 4. Submission of Matters to a Vote of Security Holders. None.
