Item 7.01 Regulation FD Disclosure

On November 7, 2016 IDEX Corporation (the "Company") presented at the Baird Analyst Day. A copy of the slide presentation used by the Company is attached as Exhibit 99.1 to this Current Report on Form 8-K.

Exhibit 99.1 contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act of 1934, as amended. These statements may relate to, among other things, capital expenditures, cost reductions, cash flow, and operating improvements and are indicated by words or phrases such as "anticipate," "estimate," "plans," "expects," "projects," "should," "will," "management believes," "the company believes," "the company intends," and similar words or phrases. These statements are subject to inherent uncertainties and risks that could cause actual results to differ materially from those anticipated at the date of this news release. The risks and uncertainties include, but are not limited to, the following: economic and political consequences resulting from terrorist attacks and wars; levels of industrial activity and economic conditions in the U.S. and other countries around the world; pricing pressures and other competitive factors, and levels of capital spending in certain industries - all of which could have a material impact on order rates and IDEX's results, particularly in light of the low levels of order backlogs it typically maintains; its ability to make acquisitions and to integrate and operate acquired businesses on a profitable basis; the relationship of the U.S. dollar to other currencies and its impact on pricing and cost competitiveness; political and economic conditions in foreign countries in which the company operates; interest rates; capacity utilization and the effect this has on costs; labor markets; market conditions and material costs; and developments with respect to contingencies, such as litigation and environmental matters. The forward-looking statements included here are only made as of the date of this news release, and management undertakes no obligation to publicly update them to reflect subsequent events or circumstances. Investors are cautioned not to rely unduly on forward-looking statements when evaluating the information presented here.

The information in this Current Report furnished pursuant to Items 7.01 and 9.01, shall not be deemed "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that Section. This information shall not be incorporated by reference into any registration statement pursuant to the Securities Act of 1933, as amended. The furnishing of the information in Items 7.01 and 9.01 of this Current Report is not intended to, and does not, constitute a representation that such furnishing is required by Regulation FD or that the information contained in Items 7.01 or 9.01 of this Current Report is material investor information that is not otherwise publicly available.

Item 9.01 - Financial Statements and Exhibits.

Significant opportunities to continue to expand via M&A in our core niche markets

M&A Implementation Plan

- 1.** **IDEX PROPRIETARY**
 - Cultivate and execute on strong history and deep relationships through years of market knowledge and company interactions
- 2.** **PRIVATE EQUITY OWNED**
 - Analyze and engage targeted private equity holdings that fit well with our core strategy and return profile
- 3.** **CARVE OUTS**
 - Identify, analyze and engage carve outs of publically held as well as small to middle market enterprises

Multi-pronged approach to developing and executing on M&A pipeline

IDEX Five Year Capital Availability

Five Year Capital Availability

Key Assumptions

- **Organic rev growth of 2–4%, total rev growth of 8–10% per annum**
- **5 Year Total EBITDA: \$3,900M**
- **Operating Cap Ex & W/C: (\$420M)**
- **Taxes: (\$760M)**
- **Dividends: (\$720M)**
- **Interest: (\$300M)**
- **Debt Capacity: \$1,000M @ 2.0–2.5x gross leverage**

**\$2.7 billion of capital availability over five years;
\$500 – \$550M available annually for M&A or share repurchase**

IDEX Summary

OBJECTIVES: Double-digit EPS CAGR, strong CASH CONVERSION and SUPERIOR RETURNS

STRATEGIC POSITIONING in highly engineered, mission critical niches

OUTSTANDING TEAMS who deliver with our Values and Operating Model

Fire & Rescue Platform

Fire & Rescue Overview

IDEX Fire & Rescue:

- **Deployed \$275M of capital with Akron Brass and AWG**
- **Leading position within \$1.4B product available market of pumps, water distribution, electronics, and rescue tools**
- **Serves stable markets that perform well over the long term**
- **The most complete offering of products to help rescue personnel do the mission critical aspects of the job**
- **Superior global penetration with more room to grow**

Competitive Advantage Via Scale

- 1200 employees
- 330 technical and commercial specialists
- Efficient production & sourcing
- IDEX balance sheet

We have assembled nearly \$400M of critical scale within Fire & Rescue

Innovation Snapshot – eDraulic Rescue Tools

Solved a critical problem and created an entirely new segment

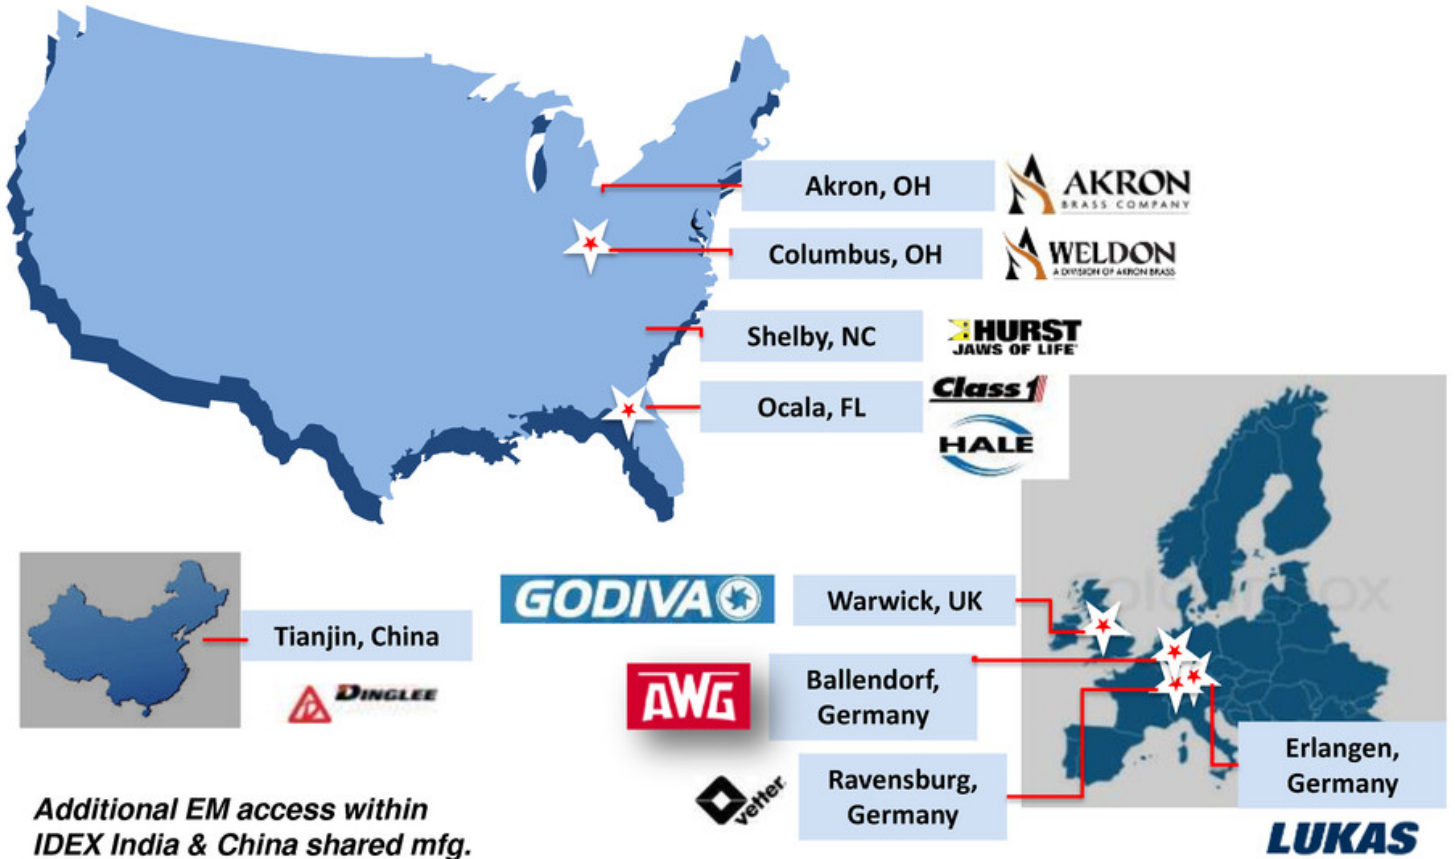

Innovation Snapshot – StrongArm Rescue Tool

- Smaller, hand-held rescue device
- Interchangeable tips
- Targeted Rapid Intervention Teams in Fire markets
- Adjacent market entry for SWAT and specialty law enforcement

Gaining strong momentum since 2015 introduction

Global Footprint

Additional EM access within IDEX India & China shared mfg.

Global footprint touches all major markets

Growth in Emerging Markets

Vadodara, India

Tianjin, China

Suzhou, China (Open 12/16)

- Developing high-end import markets and local-for-local
- Rising standards of living drive technology adoption
- Full range of technologies to establish specification points
- Disruptive potential of portability and lighter weight

Actively moving resources to these regions

Summary

- **Global markets are stable**
- **IDEX is the global market leader**
- **Integration driving value quickly**
- **Growth through innovation, emerging markets penetration, strong execution**

More room to grow organically and inorganically

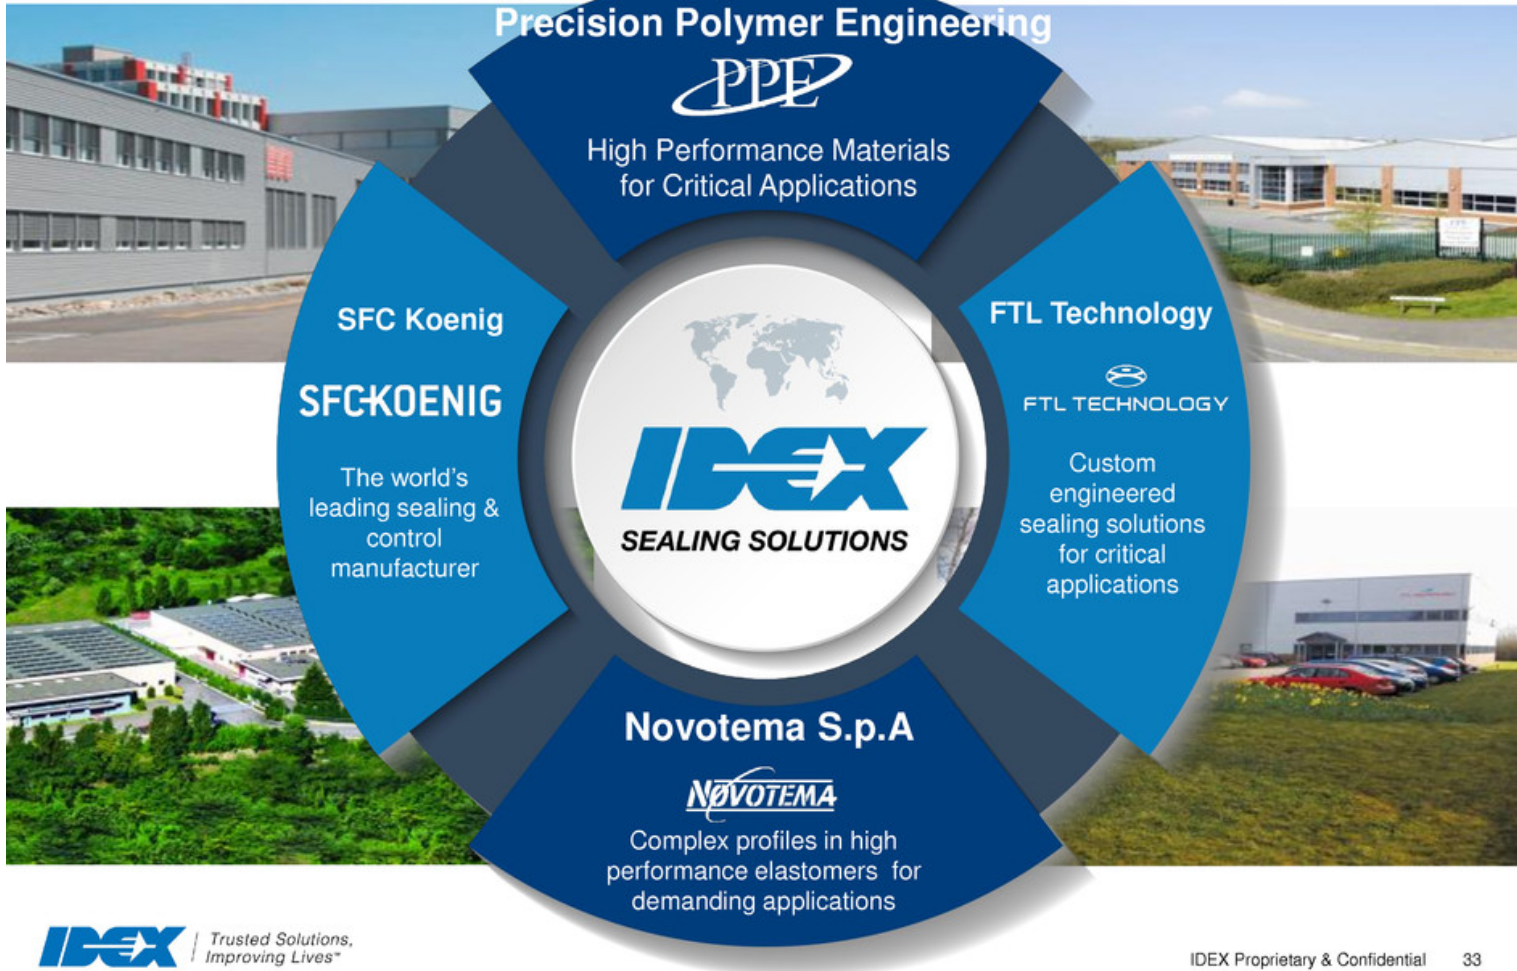

So much more than a tagline ...

Global Sealing Market Deep Dive

**Total Global
Seals &
Gaskets
Market
\$28.5B**

High Performance Sealing (12%)

\$1,230m

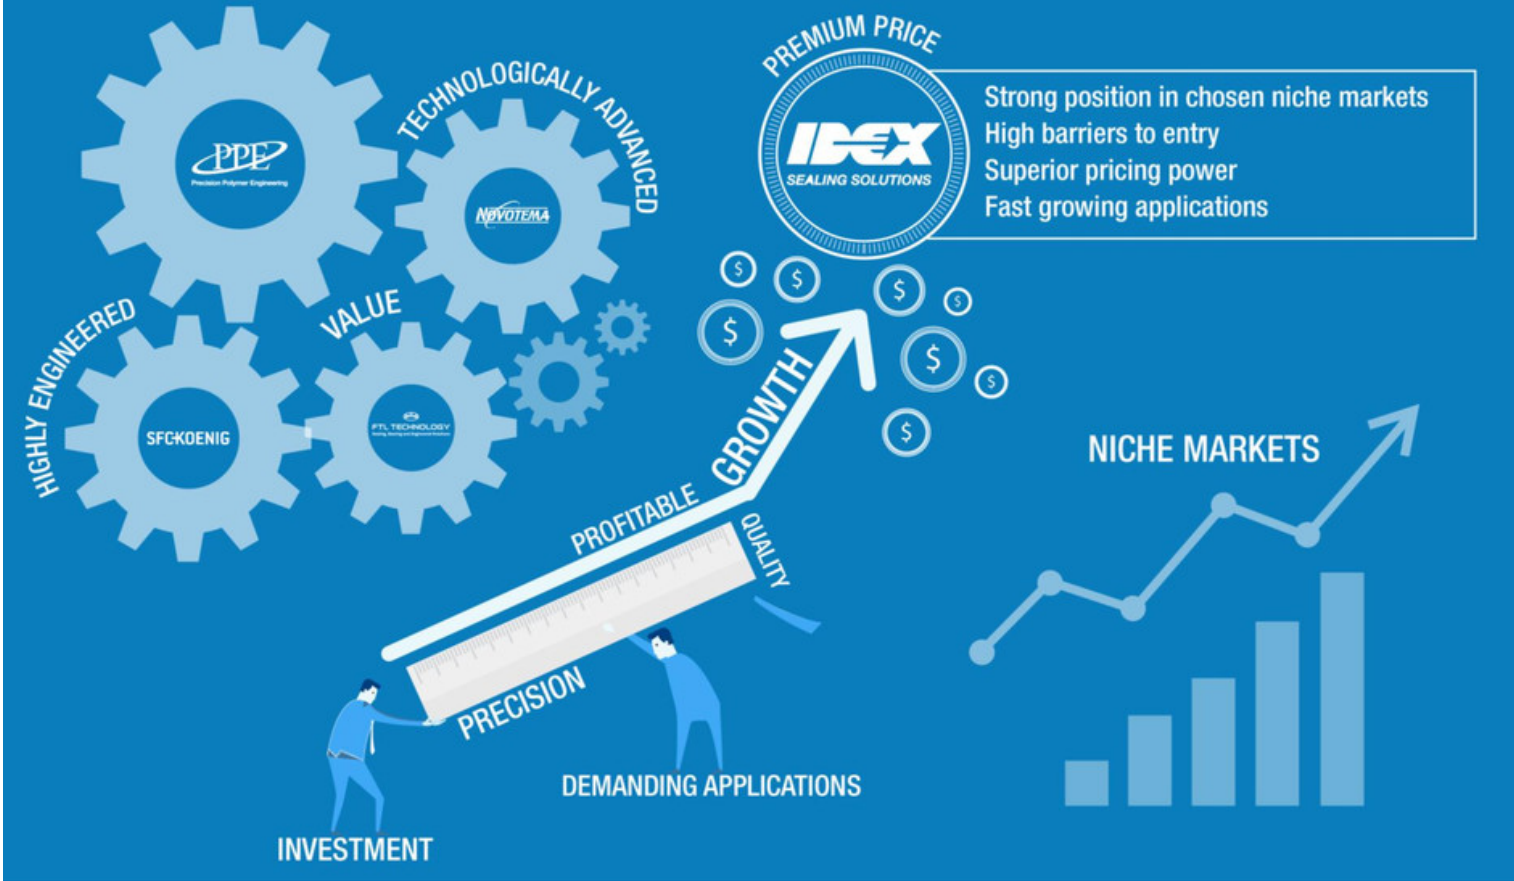

Main Application Areas

Oil & gas exploration and production, semiconductors, safety critical sealing applications, pumps & valves for extreme environments and applications, marine diesel engines, scientific instrumentation

- Mechanical Seals
- Elastomer Seals
- Engineered Plastic Seals
- Metallic Gaskets & Seals
- Non-Metallic Gaskets & Seals
- Other Seals

IDEX Model

Marine Diesel & Gas Engines Example

Innovation

- Environmental legislation (IMO) needs to be adhered to for engine emissions
- This drives requirement for dual fuel and alternative fuel capability
- PPE created a specifically designed material for multi-fuel operation meeting IMO regulations and exceeding 25,000 hours continuous operation

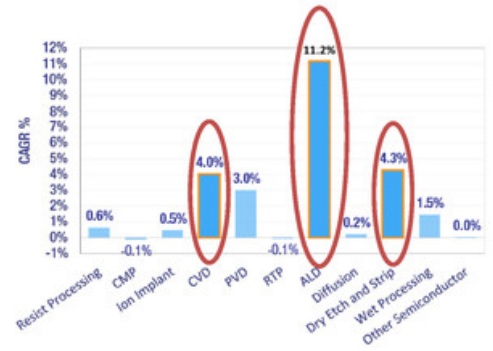

Pharmaceutical Innovation example

Innovation

- With Steam in Place requirements for Bio-Pharma applications, existing material technology was limited
- A new material has been developed in accordance with FDA and USP Class VI requirements
- Custom designed profile in new material allowing valve OEM to offer unique valve design to bio-pharma applications

Semiconductor Example

PPE Semiconductor Sales and Elastomer Market

We are growing faster than the average market growth

Semiconductor High Performance Seal Market Forecast

We have a developed a solid position at all major Semiconductor OEM's and Wafer Manufacturers

CAGR 2015-2020 by Application

Within semiconductor we are focused on the highest growth applications, laying the foundation for further accelerated growth

Organic Growth – Texas Investment

- IDEX has invested in manufacturing capability in Texas to capture US growth
- This investment creates the organic growth capability to double our US revenue over 3 years

Latest Acquisition – SFC KOENIG

Current product portfolio of SFC mainly comprises expander sealing solutions

- Check valves are new products

SFC product portfolio

Sealing Solutions		Push-type expanders: Sealing solutions for medium / high pressure applications up to 450 bar
		Pull-type expanders: Sealing solutions including for thin wall structures across all pressure ranges up to 500 bar
		Low-Pressure Plugs: Sealing solutions for low pressure applications and complex geometries up to 60 bar
Flow control		Restrictors: Provides precise pressure regulation and orifice flow control up to 200 bar
		Check valves: Allows flow at a certain pressure and prevents backflow within a circuit fluid. Market launch in late 2015.
Installation		Hydraulic & Pneumatic Tools: For use in installation of expanders and flow control solutions

Latest Acquisition – SFC KOENIG

SFC serves automotive (PC,CV) hydraulics markets, with newer entry into medical and aerospace business

Passenger Cars (PC)

Passenger cars and light commercial OEM units **below 6 tons**
Application of expanders: primarily in powertrains (e.g. engine, transmission)

Medium & Heavy-Duty (MHD)

Trucks and buses **above 6 tons**
Application of expanders: primarily used in the powertrains

Hydraulic systems (HYD)

Applications used in areas like agriculture and construction in hydraulic components; pumps and motors etc.

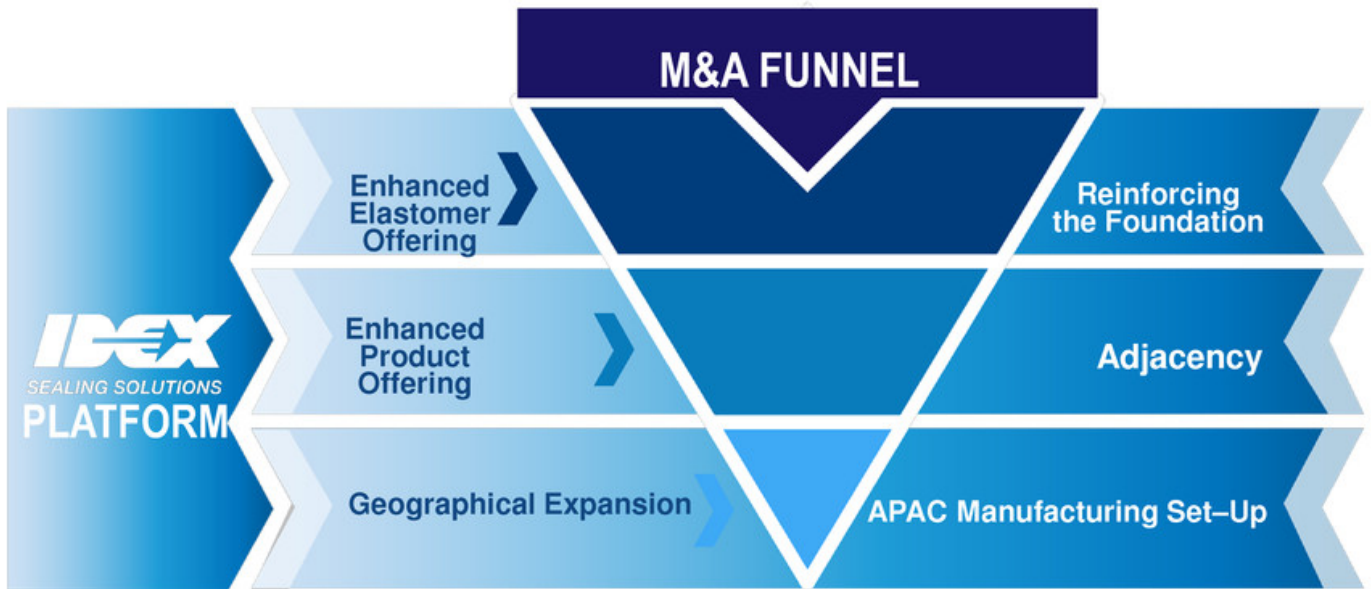

Medical/ Aerospace & other new markets

Medical: Equipment for e.g., diagnostics, dental equipment, and surgical devices.
Aerospace: Passenger planes and cargo planes.

Inorganic Growth Options

- IDEX Sealing Solutions has been growing significantly over the last years with 4 acquisitions and one major facility expansion.
- Further M&A opportunities exist in three key areas:

44

Key Take-Aways IDEX Sealing Solutions

- IDEX has developed this platform in 6 years from *no* presence to a global organization consisting of 7 sites and approximately 700 employees, with above IDEX average profitability. This growth has been accelerating over the last 2 years.
- IDEX Sealing Solutions offers significant further *organic* and *inorganic* growth potential because of the niches we are in. This is further accelerated by the SFC KOENIG addition.
- We will continue to look at further expansion of this platform, since we believe that the High End Sealing market has an excellent fit with the IDEX “**Mission critical / Low % of overall equipment spend**” model.

IDEX

SEALING SOLUTIONS
